

# Operating Instructions

---

## 1. General terms:

- 1.1. Product description:** DIA-QUICK item #303-0000
- 1.2. Delivery includes:** 10 pcs. Diamond impregnated felt wheels  
Operating instructions
- 1.3. Manufacturer's address:** YETI Dentalprodukte GmbH - Industriestrasse 3 - D-78234 Engen  
phone: 0049-7733-9410-0 FAX: 0049-7733-2533
- 1.4. Storage Conditions:** Store in dry and cool conditions  
Keep away from heat and direct sun.

## 2. Use:

For polishing ceramic and plastic surfaces as used in dentistry, especially for polishing crowns and bridges outside the mouth. - **Any misuse of the material will lead to loss of warranty and liability!**

## 3. Caution:

1. Screw the felt wheels onto suitable mandrels only.
2. Use on slow speed, i.e.: 5.000-10.000 rotations per minute.
3. Keep away from unqualified persons (e.g. children) because of the danger of swallowing. Only to be used by authorised persons.
4. Use only with safety glasses and a face mask.

## 4. Operating instructions:

### **4.1. Before use:**

Screw the felt wheel onto a mandrel (which suits the shape of the felt wheel) for slow speed operation.

### **4.2. Use:**

Polish surface on a slow speed using soft pressure.  
The direction of polishing should be steadily changed; we recommend a rotation in circles.

### **4.3. After use:**

- Clean the polished object under running water.
- After use, store in original plastic tube as supplied.

## 5. Disposal:

When disposing of used felt wheels, please observe procedure operating in your country. The packaging is recyclable.

## 6. Durability:

**In general, all material once opened, should be used in a reasonable time.**
